Analysis:

The Japanese are weak on armor, but strong on infantry, and the SNLF Fanatic is their best. It has the 5/5 defense found only among Allied infantry on the Rangers, "Screaming Eagle" or Defiant Paratroopers, but its "Hand to Hand 12" and "Hard Charger" abilities can take them out easily in the same hex. Combine them with an Imperial Sergeant to add the "Banzai Charge" ability, and Allied infantry will flee, as will many vehicles due to the "Close Assault 6" ability. They are a little pricey, but well worth it.

Pick up 1 on the Japanese Recon Detachment or SNLF Platoons for ~5 points.
