

Table 3 - Sorted by Anti-Vehicle Strength

Right-most column represents the percent probability of ≥ 1 hit against a defense 4/4 vehicle, using the best possible solo attack, including Special Abilities and two attacks against the same unit (e.g., "Extra Hull-Mounted Cannon" or "Flanking Attack" or "Close Assault", but not "Multiturreted"). Omitted SAs indicated. Units with <50% chance are not shown.
